You are most cordially invited to attend the annual Spring meeting of the Northern California Technical Resources Group.

The N.C.T.P.G. was formed in 1937 by a group of cataloguers to discuss mutual problems, exchange ideas, and to serve as a liaison unit with the A.L.A. Catalog Section. In 1958 the Technical Resources Group was reorganized "to provide an opportunity for the exchange of ideas and the discussion of problems in its fields of interest, and to cooperate with and offer suggestions to the Resources and Technical Services Division of the American Library Association. The fields of interest of the group may include any of those of the Resources and Technical Services Division of the American Library Association, e.g., acquisitions, cataloguing and classification, serials, etc."

The meeting this year, to be held at San Francisco State College Library, 24 May 1963, 9:00 AM, will be devoted to a symposium on serial publications in libraries and a discussion of some significant constitutional amendments.

**PROGRAM**

**Morning:** SERIALS IN LIBRARIES: A SYMPOSIUM

1 - Serials in College and University Libraries:
   Miss Roberta Stevenson (Library, University of California at Davis);

2 - Serials in Technical and Special Libraries:
