

# Using LibGuides CMS to Power Our Library Website

Anders Lyon (he/him) | UX & Web Design Librarian  
Gleeson Library | University of San Francisco

# Gleeson Library is in the process of a website redesign

Current homepage

Wireframe of redesigned homepage

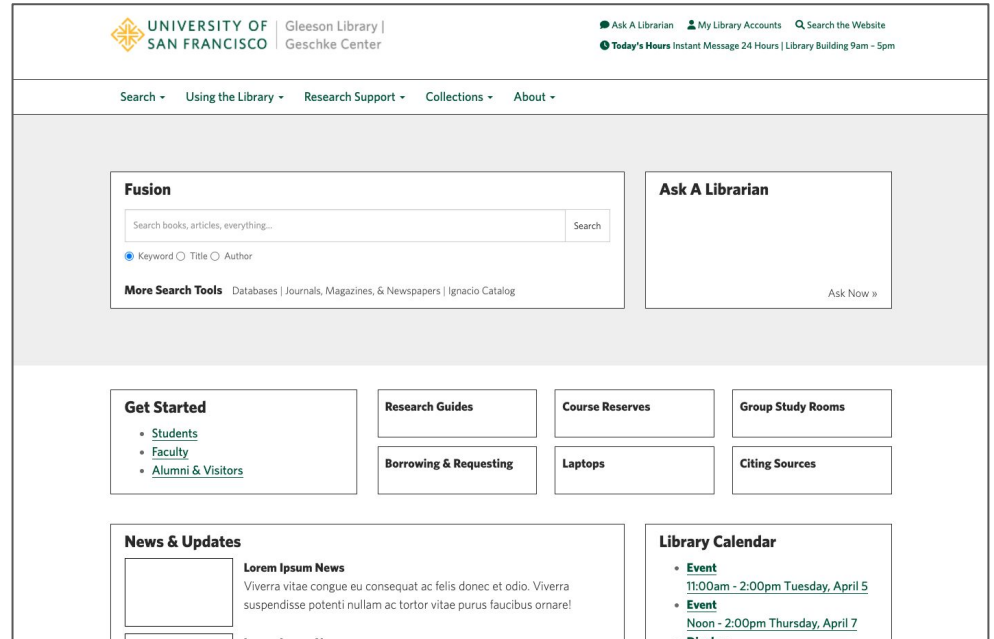

# LibGuides CMS

- **Web content organization**
  - Custom “groups”
- **Look and feel**
  - Custom web page templates
  - Custom CSS

# LibGuides CMS

- Web content organization
  - Custom “groups”
  
- Look and feel
  - Custom web page templates
  - Custom CSS

# Bootstrap

- **LibGuides CMS, LibCal, LibAnswers**
  - All built on Bootstrap 3
  
- **What is Bootstrap?**
  - Web design framework for developing responsive, mobile-first websites
  - Includes ready-to-use web content building blocks
    - Grid layout
      - Flexible layouts that stack content on smaller screens
    - Components
      - Navigational menus, buttons, forms, etc.

Try out Bootstrap on [W3Schools](#).

- [Bootstrap 3 Tutorial](#)
- Example: [Navigation Bar](#)

Copy and paste your code into LibGuides.

- [Custom page templates](#)
- [Guide content](#)

# Thanks!
